

# **Getting started**

#### Windows 9x/NT users:

When you insert the ITU CD-ROM into your CD reader, the ITU Menu opens automatically provided you have not de-activated the autostart option.

If nothing happens after the insertion of the ITU CD-ROM:

- open Microsoft Windows Explorer(tm) or an equivalent program;

- select the CD-ROM drive;

- double click "StartCD.bat";

or

- open the "\Acrobat4\Reader\" folders and double click "Acrord32.exe";

- then, using File, Open, select the file entitled "Menu.pdf" located at the root level of the CD-ROM.

### Windows 3.1, Macintosh and Unix users:

Install Adobe Acrobat Reader 4.xx with Search into your machine. For your convenient, most of the Acrobat Readers can be found on CD # 2 under \Utils\Acrobat directory. While performing the installation, read carefully the Adobe Licence Agreement regarding restrictions on the use of Acrobat Reader.
