

## Security Content Automation Protocol (SCAP) 1.2

NIST IR 7511 Revision 3

Validation [135]

*For*

**Threatguard, Inc.**

**Secutor Prime**

**Version 5**

### General:

The EWA-Canada IT Security Evaluation & Test Facility Cryptographic and Security Testing Laboratory (CSTL), certified NVLAP lab 200556-0, submitted a test report for SCAP 1.2 Validation against NIST IR 7511 Revision 3. The report provides evidence that all requirements were tested and satisfied. The test results are believed to be true and accurate, and were forwarded to the SCAP validation body for review.

### Validation Record:

<b>Vendor:</b>	Threatguard, Inc. 1100 NW Loop 410, Suite 700 San Antonio, Texas USA 78213-2263 <a href="http://www.threatguard.com/">http://www.threatguard.com/</a>	
<b>Product Name:</b>	Secutor Prime	
<b>Product Major Version:</b>	5	
<b>Product Version Tested:</b>	5 (build 5000)	
<b>Tested Platforms:</b>	<input checked="" type="checkbox"/> Microsoft Windows 7, SP1, 64 bit <input checked="" type="checkbox"/> Microsoft Windows 7, SP1, 32 bit <input checked="" type="checkbox"/> Microsoft Windows Vista, SP2 <input checked="" type="checkbox"/> Microsoft Windows XP Pro, SP3	<input checked="" type="checkbox"/> Red Hat Enterprise Linux 5.9 Client, 64 bit (x86_64) <input checked="" type="checkbox"/> Red Hat Enterprise Linux 5.9 Client, 32 bit (x86)
<b>SCAP 1.2 Capabilities:</b>	<input checked="" type="checkbox"/> Authenticated Configuration Scanner <input checked="" type="checkbox"/> Common Vulnerabilities and Exposures (CVE) Option <input checked="" type="checkbox"/> Open Checklist Interactive Language (OCIL) Option	

<b>Dates tested:</b>	3/18/2014 – 2/18/2015
<b>Report Submission Date:</b>	3/6/2015
