

Additional Notes

¹ As part of the detailed review and research, NIST consults with subject matter experts (SMEs) as appropriate.

² Not all comments are substantive in nature and do not impact the technical content or implementation of a control/control enhancement. In such cases, NIST can elect to skip the "Candidate" step and move a change directly to "Awaiting Publication."

³ For more information on public comment, refer to "Public Comment Timeline and Time Period Criteria"

⁴ For more information on "Awaiting Publication", refer to "Terminology"
