

# SP Template Change Log

7/31/2024

Date Published	Version	Changes	Notes
11/17/2023	5.4		Baseline Version
1/2/2024	5.5	Added [O] to Authentication Methods table	
		Added [O] to Section 7.1 so that all the subsection of Section 7 are [O]	
		Changed all of the content controls for the tables in Section 7 so that they can be deleted.	
2/1/2024	5.6	Changed Content Control Name: ApprovedAlgorithmTable to ApprovedAlgorithmsTable	
4/23/2024	5.7	<p>Removed ContentControls for the following tables:</p> <ul style="list-style-type: none"> <li>KeyGenerationSubTable</li> <li>KeyAgreementSubTable</li> <li>KeyTransportSubTable</li> </ul> <p>These tables were originally included in these sections for convenience and duplicated information from the SFI table. They might return once the SFI table requirements and granularity structure definition have been finalized. The sections within the SP remain and would continue to be used for the text descriptions required for these items.</p>	
7/31/2024	5.8	<p>Added [O] to several content control items and section to indicate they are optional:</p> <ul style="list-style-type: none"> <li>Module Characteristics</li> <li>Entropy Certs table</li> <li>Entropy Sources table</li> <li>Authentication Methods table</li> <li>Non-Approved Services table</li> </ul> <p>Removed delete protection from corresponding content controls.</p> <p>Removed NIST Users from Created By/Edited By</p>
