Multi-Cloud Security Public Working Group
ZTA/ATO Focus Groups Meeting Summary
June 27, 2024, 3:00 to 4:00 PM EST

Topics included the following action items:

- Everyone
    - Please submit any outstanding challenges by NEXT THURSDAY 7/4 (Google form here). We will continue to accept inputs overall, but this is the cutoff for the initial categorization work.
    - If you have submitted, please ensure you have added a Description in that spreadsheet (column F) for each of your challenges by NEXT THURSDAY 7/4. This is critical to our current effort.
    - In column B "Challenge Category," please add as a comma-separated list (or to an existing list), how you think that challenge should be categorized. Please work from existing values to start, but feel free to add as necessary. Ed Kandel in particular will be contributing here (thank you!). This will result in a list of all suggested categories from all contributing members that the chairs will reduce down.
- Richard Julian
    - Richard has volunteered to complete column C "Related To." Please be on the lookout for any communications from him asking for clarification of your submission. This is scheduled for completion by THURSDAY 7/18.
- Prathibha Muraleedhara
    - Prathibha has volunteered to sync column D "Title" so that it functions as a sub-category. This is scheduled for completion by THURSDAY 7/18.

Next steps:
- Consolidating challenge descriptions into easily understood statements.
- Identifying gaps in our research.
