

[MS-OFREF]: Microsoft Office Master Reference

Intellectual Property Rights Notice for Open Specifications Documentation

- **Technical Documentation.** Microsoft publishes Open Specifications documentation for protocols, file formats, languages, standards as well as overviews of the interaction among each of these technologies.
- **Copyrights.** This documentation is covered by Microsoft copyrights. Regardless of any other terms that are contained in the terms of use for the Microsoft website that hosts this documentation, you may make copies of it in order to develop implementations of the technologies described in the Open Specifications and may distribute portions of it in your implementations using these technologies or your documentation as necessary to properly document the implementation. You may also distribute in your implementation, with or without modification, any schema, IDL's, or code samples that are included in the documentation. This permission also applies to any documents that are referenced in the Open Specifications.
- **No Trade Secrets.** Microsoft does not claim any trade secret rights in this documentation.
- **Patents.** Microsoft has patents that may cover your implementations of the technologies described in the Open Specifications. Neither this notice nor Microsoft's delivery of the documentation grants any licenses under those or any other Microsoft patents. However, a given Open Specification may be covered by Microsoft's Open Specification Promise (available here: <http://www.microsoft.com/interop/osp>) or the Community Promise (available here: <http://www.microsoft.com/interop/cp/default.msp>). If you would prefer a written license, or if the technologies described in the Open Specifications are not covered by the Open Specifications Promise or Community Promise, as applicable, patent licenses are available by contacting iplg@microsoft.com.
- **Trademarks.** The names of companies and products contained in this documentation may be covered by trademarks or similar intellectual property rights. This notice does not grant any licenses under those rights.
- **Fictitious Names.** The example companies, organizations, products, domain names, e-mail addresses, logos, people, places, and events depicted in this documentation are fictitious. No association with any real company, organization, product, domain name, email address, logo, person, place, or event is intended or should be inferred.

Reservation of Rights. All other rights are reserved, and this notice does not grant any rights other than specifically described above, whether by implication, estoppel, or otherwise.

Tools. The Open Specifications do not require the use of Microsoft programming tools or programming environments in order for you to develop an implementation. If you have access to Microsoft programming tools and environments you are free to take advantage of them. Certain Open Specifications are intended for use in conjunction with publicly available standard specifications and network programming art, and assumes that the reader either is familiar with the aforementioned material or has immediate access to it.

Revision Summary

Date	Revision History	Revision Class	Comments
04/04/2008	0.1		Initial Availability.
06/27/2008	1.0	Major	Added technical content for format documentation.
12/12/2008	1.01	Editorial	Revised and edited the technical content.
03/18/2009	1.02	Major	Added technical content for protocol documentation.
07/13/2009	1.03	Major	Revised and edited the technical content.
08/28/2009	1.04	Editorial	Revised and edited the technical content.
11/06/2009	1.05	Major	Revised, edited and added technical content.
02/19/2010	1.06	Major	Revised, edited and added technical content.
03/31/2010	1.07	Major	Revised, edited and added technical content.
04/30/2010	1.08	Major	Revised, edited and added technical content.
06/07/2010	1.09	Major	Revised, edited and added technical content.
06/29/2010	1.10	Minor	Clarified the meaning of the technical content.
07/23/2010	1.11	Major	Significantly changed the technical content.
09/27/2010	1.12	Major	Significantly changed the technical content.
11/15/2010	1.13	Major	Significantly changed the technical content.
12/17/2010	1.14	Major	Significantly changed the technical content.

4 Change Tracking

This section identifies changes that were made to the [MS-OFREF] protocol document between the November 2010 and December 2010 releases. Changes are classified as New, Major, Minor, Editorial, or No change.

The revision class **New** means that a new document is being released.

The revision class **Major** means that the technical content in the document was significantly revised. Major changes affect protocol interoperability or implementation. Examples of major changes are:

- A document revision that incorporates changes to interoperability requirements or functionality.
- An extensive rewrite, addition, or deletion of major portions of content.
- Changes made for template compliance.
- Removal of a document from the documentation set.

The revision class **Minor** means that the meaning of the technical content was clarified. Minor changes do not affect protocol interoperability or implementation. Examples of minor changes are updates to clarify ambiguity at the sentence, paragraph, or table level.

The revision class **Editorial** means that the language and formatting in the technical content was changed. Editorial changes apply to grammatical, formatting, and style issues.

The revision class **No change** means that no new technical or language changes were introduced. The technical content of the document is identical to the last released version, but minor editorial and formatting changes, as well as updates to the header and footer information, and to the revision summary, may have been made.

Major and minor changes can be described further using the following change types:

- New content added.
- Content updated.
- Content removed.
- New product behavior note added.
- Product behavior note updated.
- Product behavior note removed.
- New protocol syntax added.
- Protocol syntax updated.
- Protocol syntax removed.
- New content added due to protocol revision.
- Content updated due to protocol revision.
- Content removed due to protocol revision.
- New protocol syntax added due to protocol revision.

- Protocol syntax updated due to protocol revision.
- Protocol syntax removed due to protocol revision.
- New content added for template compliance.
- Content updated for template compliance.
- Content removed for template compliance.
- Obsolete document removed.

Editorial changes are always classified with the change type "Editorially updated."

Some important terms used in revision type descriptions are defined as follows:

- **Protocol syntax** refers to data elements (such as packets, structures, enumerations, and methods) as well as interfaces.
- **Protocol revision** refers to changes made to a protocol that affect the bits that are sent over the wire.

The changes made to this document are listed in the following table. For more information, please contact protocol@microsoft.com.

Section	Tracking number (if applicable) and description	Major change (Y or N)	Change Type
2 External References	Removed the reference to "MEDIA RSS 1.1.2".	Y	Content removed.
2 External References	Removed the reference to "RFC1777".	Y	Content removed.
2 External References	Removed the reference to "RFC3377".	Y	Content removed.
2 External References	Removed the reference to "RFC5246".	Y	Content removed.
2 External References	Changed the reference to "SMPTE-VC-1".	N	Content updated.
2 External References	Removed the reference to "RFC2255".	Y	Content removed.
3 Internal References	Removed the reference to "MS-ADA2".	Y	Content removed.
3 Internal References	Removed the reference to "MS-ADLS".	Y	Content removed.
3 Internal References	Removed the reference to "MS-ADSC".	Y	Content removed.
3 Internal References	Removed the reference to "MS-OXLDAP".	Y	Content removed.
3	Changed the reference to "MC-CPB".	Y	Content updated.

Section	Tracking number (if applicable) and description	Major change (Y or N)	Change Type
